

20ft Straight - Fabric Wall Flex

Graphic Specifications

- 100 dpi
- CMYK
- Actual Size
- JPEG/TIFF File

Safe Area Spacing

Critical images, such as text or non-background images, are **NOT** to be placed within the specified spacing on the edges. However, your artwork may allow non-critical images, such as background colours and images, bleed to the edges.

*Design Tips

Limit Gradient Effects

Gradient effects are not suggested due to the tendency of transitional lines being visible. If this is unavoidable, ensure that the gradient is set at a high resolution and you can also set a 1% noise filter using photoshop to compensate for transition lines. Note that our acceptance level is a 2 meter viewing distance, where transition lines would be barely visible. Please contact us for further clarification.
