

SEG Backlit Setup Instruction Sheet

Step 1: Expand the *Frame*

Take out the **Frame** from the **Case**.

Expand **Frame**. Note: the **feet** side should be placed on the floor.

Step 2: Connecting the *Support Clips*

Gently push the **middle support clips** together until they click.

Step 3: Install *Side Channel Bars*

Swing the bar until it fits in at the other end.

Step 4: Install *Front and Back Channel Bars*

a) Line up the **channel bars** up with the grooves and gently push them in

b) Continue all the way around and the back.

Step 5: Installing the *LED Ladder Lights*

a) Move the **LED lights** in place. Take notice of the label indicating the top position.

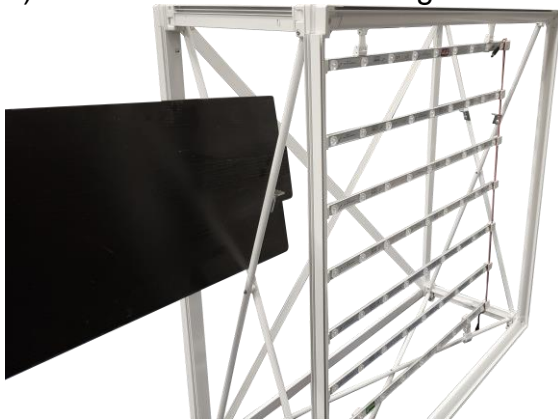

b) Secure the LED lights by clipping it on to the top and bottom cross bars.

Step 6: Installing the *Shelf*

a) Slide the shelf board through the side.

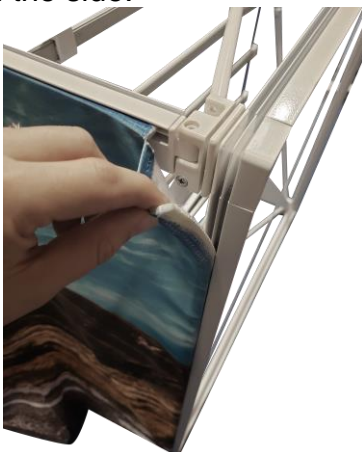

b) Let it rest on the 4 supports.

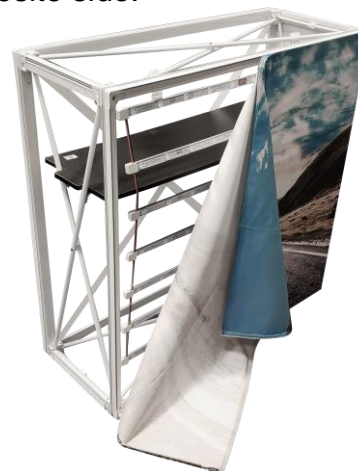

Step 7: Install the *Front Fabric Graphic*

a) Insert the silicone edge into the channels starting from the side.

b) Continue around the counter until you reach the opposite side.

Step 8: Install *the Back Fabric Graphic*

Using the same method as **Step 7**, install the *back fabric graphic*.

Step 9: Install the *Counter Top*

Unfold the *counter top* and place it on top of the frame.

Step 10: Connecting *LED lights*

a) Connect the plug to the *transformer* and place it inside the frame.

b) Connect the *LED ladder lights* to the *transformer*.

To disassemble: Reverse Steps 1 through 10.
